2024 Scientific program

Did you know? The educational aspect of IKDS-2024 is central to promoting classical and advanced knowledge in KD. From basic science to clinical management and preventive care, IKDS-2024 is rich in scientific material and impactful exchange. Above all, young investigators and in-training physicians make the essence of the future of KD. Get your science ready, and bring on your knowledge !

Continue innovating the science and helping past and future KD patients and their families through acute and long term care.

IKDS-2024 PROGRAM

3 full days & 1 half day:

- **Bioinformatics/AI**
- **Clinical management**
- **Diagnostics**
- **Environmental science**
- **Etiology/Basic science**
- **Genetics**
- **Immunology**
- **Therapeutics**
- **Interactive breakout sessions**
- **And so much more...**

Presentations by leading experts from around the globe!

Research exchange from young and established investigators.
